Uptown Pup Training Services Questionnaire

Thank you for your interest in our training programs! We are proud to provide force- & fear-free, positive-reinforcement training services for basic obedience and behavior modification. We never use shock collars, prong collars, or dominance-based handling to achieve training goals.

In order for us to meet your needs quickly and efficiently, we ask that you take the time to answer our questions thoroughly and completely. If you are applying for more than one dog, please answer the questions for each dog individually and return to us. Once we receive your completed questionnaire, our training team will review it and follow up with you by the end of the next business day.
